Electric Water Cure. THE undersigned has taken the large House on the hill in South Nashville, at the head of Front street, known as the Rutledge property, where he has established a comfortable home for invalids, and provided ample means for their restoration to health. Patients from the country and strangers taken sick in the city can find gentle nursing and appropriate medical attendance. Our treatment in Chronic Diseases consists of Water Electricity and the most offering consists of Water Electricity, and the most effective medicine and Homospathy in all Acute and Febrile Diseases, and in all cases our charges will be mode rate and to suit the times.

The institution is located in a field of 17 acres, con

From the house, we have the finest prespective view of the city, Cumberland river, and surrounding country, afforded in any other part of the city. For the protection of others, we can receive into this institution no patients having contagious diseases, but will attend to such at other places. Family practice attended to as usual.

The common belief that much of the uncertainty of Medical Practice arises from the bad quality of Medical substances, seems to acquire daily confirmation. Through faulty preparation and commercial competition, many preparations formerly regarded as of primary importance are gradually going out of use, while others produce effects and cause accadents that do not properly belong to them as described in the Pharmacopea. New remedies, as suggested and offered for trial are often found so imperfect, and varying so much in chemical character and strength that they are either condemned or received upon false premises, both equally at variance with the proper progress in therapeutics; whilst most practitioners daily feel that the Materia Medica is not rich enough either to lose its old remedies, or to sacrifice opportunities of acquiring new ones. A proper appreciation of these facts warrant the Subscribers in manufacturing and vending none but First Class Standard Preparations, with direct reference to the necessities of the profession and the requirements of the Pharmacopea. Our Chemicals, Powders, Tinctures, Essential Oils, and in fact all of our Medicinal Preparations are selected and compounded with a view to the quality only, without regard to price. In Perfumery, Variety Goods, Patent Nostrums, &c., we endegvor to please all tasses.
